About

- > I started my career as a Functional Test Engineer, then spent a few years on the development side — writing production code, debugging systems, and learning how software breaks at scale from the inside.
- > It taught me how developers approach architecture, where technical debt tends to hide, and what makes software genuinely testable. It made me a sharper, more technical tester.
- > Now I'm looking to bring that combined experience back to quality engineering. I'm most excited about QA Analyst / QA Architect roles where I can design test strategies that catch problems early, build solid automation frameworks, and work closely with dev teams.
- > I believe the best quality engineers understand software deeply, and the best developers value testing deeply. I want to sit at that intersection.

Core Arsenal:

- **GenAI Stack & Platforms:** LLMs, RAG, FAISS, ChromaDB, OpenAI API, Azure OpenAI, **Cursor**, Prompt Engineering
- **Languages & Scripting:** Python, C, Core Java, HTML5/CSS3, Shell Scripting
- **Testing & Quality:** Selenium, Amdocs-Ginger, **GenAI-Assisted SDLC/STLC**, Defect Management, Unix, SQL
- **Domain Expertise:** Telecom BSS, **AR and Billing**, Order Management, Digital Transformation

Top skills

Order Management · Telecommunications Billing · Business Support Systems (BSS) · Execution Management Systems · Digital Transformation →

Experience

Amdocs

Full-time · 3 yrs 5 mos

- **Software Developer**
May 2025 – Present
Gurugram, Haryana, India · Hybrid
 - Built a in-house GenAI powered tool Swift on top of core billing product which improved delivery efficiency by 30%
 - Pinpointed and implemented necessary modifications within existing programs, enhancing functionality and performance with complex backend solutions with agentic development using Cursor.[CRM, New Business Development and other skills](#)
- **Functional Test Engineer**
Dec 2022 – May 2025 · 2 yrs 6 mos
Pune District, Maharashtra, India · On site
 - Oversaw and managed the analysis, design, implementation, and execution of test cases and test suites
 - Applied domain expertise to maintain testing efficiency and reliability across 15+ major releases
 - Career highlight: on-site assignment in UK, working directly with clients on multiple production deployments, including support for major iPhone flagship device launches[Verification and Validation \(V&V\), Business Support Systems \(BSS\) and other skills](#)

Education

Savitribai Phule Pune University

Bachelor of Engineering – BE, Computer Engineering

Jul 2019 – Jul 2022

Grade: 9.04

Licenses & certifications

Test Architect

Amdocs

Issued May 2025

[Execution Management Systems, Change Management and other skills](#)
